Description

ELS-GUBR
UP-Gehäuse mit Brandschutzab-
sperrklappe, -ummantelung K90,
Ausblas rückseitig

Flush mounted casing in flat design with fire protection encasement and fire protection shutter (K90, 18017) for insertion of the ELS fan unit for installation in installation shaft, plaster board systems, wall or ceiling with fire protection classification.

Metal discharge spigot (DN 80 mm) to the back with maintenance-free , airtight back draught shutter made from stainless steel. Shut-off of fire protection shutter with release of fusible link. Back draught shutter turnable by 90°, thus casing installation in every position.

Comfortable electric connection by removable quick plug connector.

Cardboard cover plate included in delivery.

Dimensions: W/H 262x262 mm, D 95 mm + 69 mm spigot depth = 164 mm

DIBT-Approval No. Z-51.1-193
